

*Only the Sun Shines Brighter than*  
**SHEILA SHINE!**

SHEILA SHINE stainless steel polish and surface preservative provides outstanding results on all of your commercial, industrial, automotive and marine needs. For over 50 years, cleaning professionals choose SHEILA SHINE in hospitals, shopping malls, airports, hotels, kitchens, etc. SHEILA SHINE's unique formula also leaves a clean and polished look on chrome, aluminum, brass, porcelain, fiberglass, and even leather. In one easy wipe, SHEILA SHINE's powerful solvent based formula, cuts through grease and grime, leaving a polished and protected surface that actually eliminates streaking, prevents liquid penetration and resists finger marks. Regular use of SHEILA SHINE will keep a high gloss appearance on your surfaces indefinitely. SHEILA SHINE also offers a solvent-based, low VOC formula with the same effective cleaning & polishing performance as our original formula and is authorized for sale in the State of California.
