

SHEILA SHINE

*Only the Sun Shines Brighter!**

**A proven
STAINLESS STEEL
polish and surface
preservative
for all your
industrial needs**

Airlines and fine hotels use SHEILA SHINE. So do hospitals, restaurant chains, sports stadiums and government buildings. Chances are, if you walk into a building and notice gleaming elevator doors, turnstiles that glow, or spotless, like-new commercial kitchen surfaces, SHEILA SHINE is responsible. Uses in the industrial setting include: elevators, escalators, water fountains, exterior signs, flag poles, hand rails, appliances, stainless steel sinks, aluminum gutters, kitchen exhaust hoods, range hoods, furniture, fans and more.

- **A wide range of applications.** Use it on stainless steel appliances, chrome, enamel, fiberglass, teak and other woods (excluding floors).
- **A product that is economical.** A small amount goes a long way because SHEILA SHINE cleans, polishes and protects. It's three products in one.
- **It's easy to use.** Apply with a clean, dry cloth. No rubbing necessary.
- **Outstanding results.** Leaves surface clean and shiny with no residue. Removes dirt, grease and finger print marks. Repels water and prevents liquid penetration. Regular use of SHEILA SHINE will keep your surfaces' high gloss indefinitely.
